## CORAVIN SYSTEM

Revolutionising the way members order and drink wine, the ground breaking new system, Coravin, is now available at the Oxford and Cambridge Club. It is a rare pleasure to try an expensive wine by the glass. Most bottles over £150 are sold as just that, a bottle. However, an invention from Greg Lambrecht means the woes of oxygenation and wines going bad may become a thing of the past. Coravin works by injecting Argon, an inert gas into the bottle before ejecting the wine through a fine, medical grade needle. This prevents any oxidation of the wine, which could ruin a wine's development. Once the device is removed from the cork, the only evidence is a tiny hole in the top of the capsule as the cork reseals itself.

It is incredible being able to offer such iconic wines by the glass to our members as follows-

<b>BIN</b>	<b>WHITE WINE</b>	<b>125ML</b>	<b>250ML</b>	<b>BOTTLE</b>
